From: Pamela Carmichael

I am writing today to urge you to adopt internationally validated non-animal test methods. I believe more can be done in this country to reduce and one day, hopefully, eliminate, animal testing. As these international tests are proving acceptable and reliable, I believe we have a duty in the United States to do our part to also have better testing methods that help, not hinder, human health.

Thank you for your consideration.

Sincerley,

P. Carmichael
